SUMMARY

Full-stack software engineer well-versed in JavaScript for front-end and back-end development, showcasing proficiency in React, HTML, CSS, API implementation, Node.js, Express, PostgreSQL, MongoDB, and frameworks including Bootstrap and Tailwind CSS. Proven customer service professional and creative thinker, actively engaged in mastering UI/UX design. Adept at blending logic, creative problem-solving, and consumer-centricity. Aspiring to embark on a career in software engineering.

EDUCATION

Certificate, Software Engineering   01/2024

Thinkful   Online

Relevant Coursework: Web Development, Frontend Frameworks, Database Creation and Management, Creating RESTful APIs, Data Structures and Algorithms

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, jQuery, Bootstrap, Tailwind CSS
Backend: Node.js, Express, RESTful APIs, PostgreSQL
Design: Adobe Creative Cloud (Photoshop, Illustrator, Xd), Figma
Tools: Jest, Mocha, Chai, Knex, Axios, Git, GitHub, Render, Vercel, Firebase, Heroku, Postman, DBeaver, Node Package Manager, Visual Studio Code

PROJECTS

Recipe Tracker Application   09/2023

Technology: React, HTML5, CSS, Bootstrap | **Link:** recipe-tracker-app.ariicodes.com
- Developed a React application to create a user-friendly interface for saving and managing recipe information.
- Applied the single responsibility principle to React components, streamlining codebase maintenance.

Responsive AirBnB Frontend Application   08/2023

Technology: HTML5, CSS, Bootstrap | **Link:** thinkfulbnb.ariicodes.com
- Made a responsive frontend lookalike of the AirBnB static website, ensuring seamless user experience on mobile and tablet devices.
- Utilized Flexbox and diverse CSS tools to craft dynamic and responsive layouts.

Library Application   07/2023

Technology: JavaScript ES6, Bootstrap, HTML5, Node.js | **Link:** local-library.ariicodes.com
- Assembled the functionality for a user-friendly book application, increasing accessibility and satisfaction.
- Implemented efficient search and sorting functions.
- Coded JavaScript functions designed for scalability, enabling the library's expansion with minimal code refactoring.
